REGIONAL HOUSING SUMMIT
FROM CRISIS TO SOLUTION

Solutions

The third Summit, hosted by the Regional Housing Partnership, will focus on solutions to the housing crisis. We know that high numbers of residents in our region spend over 30% and 50% of their incomes on housing, leaving little left to cover groceries, medicine, or other expenses. Many cannot find a home within range of work. In order to solve these problems, we are pulling together people who have had success in other regions, experts who can speak to best practices, and an audience who can work on solutions together.

Summit Outcomes

A More Connected Affordable Housing Industry

Attendees of our summits come from a wide range of organizations working to address housing in our region, and we provide ample opportunities for networking and collaboration.

Tools for Policy Makers

Experts on comprehensive planning, zoning, tax strategies, and other policy tools, will speak to strategies to encourage affordable housing.

Opportunities for Housing Development with a Preservation Lens

We will bring together experts in community preservation and preventing displacement, alongside affordable housing developers, to discuss strategies for providing affordable housing while protecting the unique character of our communities.

Sponsorship Levels

$10,000 Video Sponsor OR Cocktail Hour

- Exclusive Sponsorship of either the Networking Cocktail Hour the evening before the Summit OR Videos made and distributed after the Summit
