Introduction

Purpose and Objective

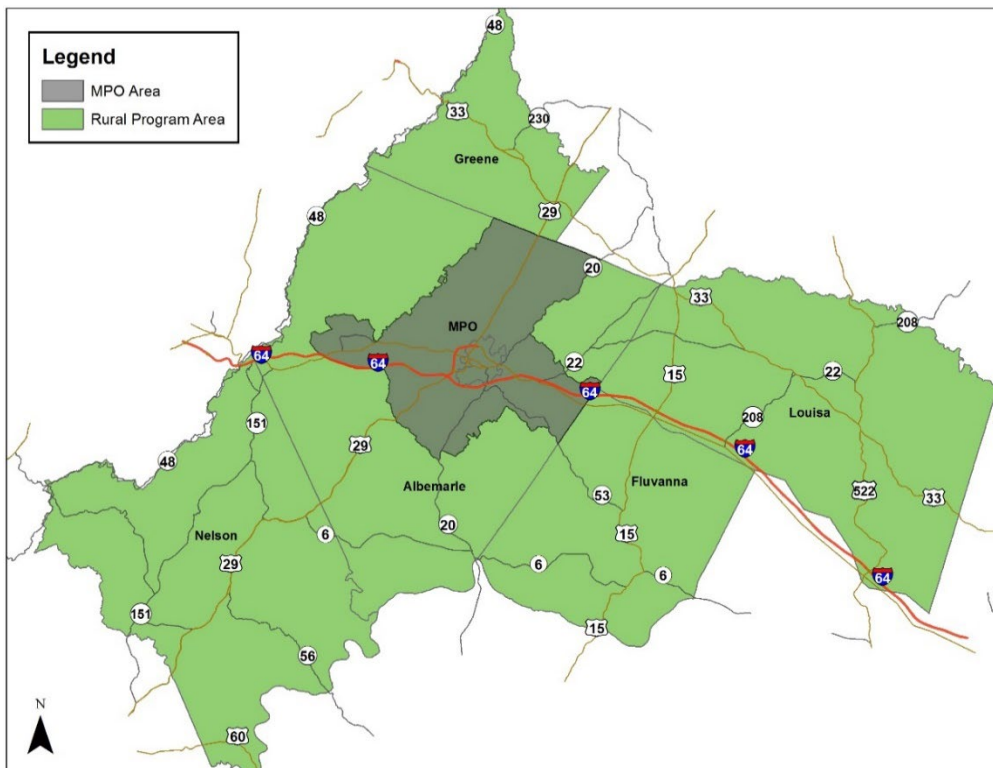

The Virginia Department of Transportation (VDOT) allocates part of the State Planning and Research (SPR) funding to provide annual transportation planning assistance for non-urbanized areas within the Commonwealth. The Rural Transportation Planning (RTP) Program was created to aid the State in fulfilling the requirements of the State Planning Process to address the transportation needs of non-metropolitan areas. Funds appropriated under 23 U.S.C. 307(c) (SPR funds) are used in cooperation with the Department of Transportation, Commonwealth of Virginia for transportation planning as required by Section 135, Title 23, U.S. Code. These Federal funds provide 80 percent funding and require a 20 percent local match.

In FY-2022 each planning district commission / regional commission that has rural area will receive \$58,000 from VDOT's Rural Transportation Planning Assistance Program. The corresponding planning district commission / regional commission will provide a local match of \$14,500 to conduct rural transportation planning activities. This resource may be supplemented with additional planning funds. The arrangement of all such funds involves the development of a scope of work, approval and other coordination in the Transportation & Mobility Planning Division's (TMPD) administrative work programs.

The scope of work shall include specific activities as requested by VDOT and/or the Federal Highway Administration. The scope of work may also include activities or studies addressing other transportation planning related issues that may be of specific interest to the region. The criteria for the determination of eligibility of studies for inclusion as part of this work program are based upon 23 U.S.C. 307 (c), State Planning and Research.

Rural Transportation Program

The scope of work includes specific activities as requested by VDOT and/or the Federal Highway Administration. The scope of work also includes activities or studies addressing other transportation planning related issues that are of specific interest to the region. The criteria for the determination of eligibility of studies for inclusion as part of this work program are based upon 23 U.S.C. 307 (c), State Planning and Research.

Highlights of FY21

In FY21, the Rural Transportation Program focused on a variety of outcomes. The program dedicated time to the Smart Scale prioritization process, which requires substantially more resources from the VDOT district offices, Planning District and localities. While TJPDC staff conducted its regular administration of the program and provided a variety of other services to the region and its members, the following highlights the more substantive efforts.

ZION CROSSROADS GATEWAY PLAN – Work continued in FY21 on a joint, collaborative planning project across two of the PDC’s localities, Fluvanna and Louisa County. The plan will help the two localities develop a vision for growth and investment in the Zion Crossroads U.S. Highway 15 corridor off of Interstate 64.

SMART SCALE – In FY16, the Commonwealth implemented its new process for funding transportation projects. While the process helps to minimize political influence and maximize data-driven decisions, it also demands greater resources from the VDOT districts, PDCs and localities. The TJPDC continues to support its localities with Smart Scale submittal assistance. The TJPDC assisted Nelson County in submitting three projects and submitted three on behalf of Albemarle County.

TOWN BICYCLE AND PEDESTRIAN INFRASTRUCTURE ASSESSMENT– This study assessed the existing bicycle and pedestrian infrastructure in the incorporated towns and developed recommendations for future bicycle and pedestrian infrastructure supporting the broader goals of the localities.
