## Introduction

### Purpose and Objective

---

The Virginia Department of Transportation (VDOT) allocates part of the State Planning and Research (SPR) funding to provide annual transportation planning assistance for non-urbanized areas within the Commonwealth. The Rural Transportation Planning (RTP) Program was created to aid the State in fulfilling the requirements of the State Planning Process to address the transportation needs of non-metropolitan areas. Funds appropriated under 23 U.S.C. 307(c) (SPR funds) are used in cooperation with the Department of Transportation, Commonwealth of Virginia for transportation planning as required by Section 135, Title 23, U.S. Code. These Federal funds provide 80 percent funding and require a 20 percent local match.

In FY-2023 each planning district commission / regional commission that has rural areas will receive \$58,000 from VDOT's Rural Transportation Planning Assistance Program. The corresponding planning district commission / regional commission will provide a local match of \$14,500 to conduct rural transportation planning activities. This resource may be supplemented with additional planning funds. The arrangement of all such funds involves the development of a scope of work, approval and other coordination in the Transportation & Mobility Planning Division's (TMPD) administrative work programs.

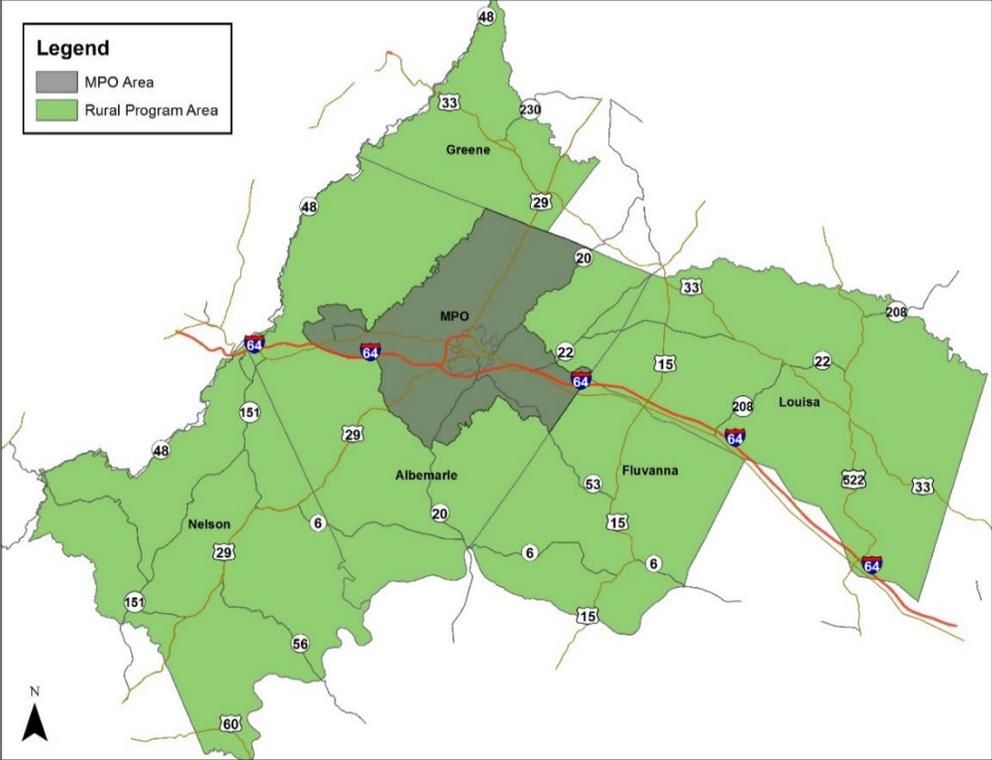

The scope of work shall include specific activities as requested by VDOT and/or the Federal Highway Administration. The scope of work may also include activities or studies addressing other transportation planning related issues that may be of specific interest to the region. The criteria for the determination of eligibility of studies for inclusion as part of this work program are based upon 23 U.S.C. 307 (c), State Planning and Research.

## Highlights of FY22

In FY22, the Rural Transportation Program focused on a variety of outcomes. The program dedicated significant time to the Route 29 North Corridor Study, which required substantially more resources from the VDOT district offices, Planning District, and localities. While TJPDC staff conducted its regular administration of the program and provided a variety of other services to the region and its members, the following highlights the more substantive efforts.

**ROUTE 29 NORTH CORRIDOR STUDY** – Work continued in FY23 on a collaborative planning project across two of the PDC’s localities, Greene and Albemarle. The plan will help the two localities develop a vision for supporting growth and investment in the Route 29 North corridor from Route 649 (Airport Road) in Albemarle County and Deerfield Drive in Greene County. TJPDC staff worked with VDOT, technical consultants, Greene and Albemarle staff, and stakeholders to review previous studies and planning documents, develop project goals, evaluate existing conditions, predict future demand, engage the public, prioritize projects within the corridor and develop recommendations. TJPDC staff assisted with stakeholder and public engagement, presenting at Community Advisory Committee meetings, stakeholder advisory committee meetings, and coordinating public meetings.

**TOWN BICYCLE AND PEDESTRIAN INFRASTRUCTURE ASSESSMENT**– This study assessed the existing bicycle and pedestrian infrastructure in the incorporated towns of Stanardsville and Scottsville and developed recommendations for future bicycle and pedestrian infrastructure supporting the broader goals of the localities.
